Health

All cattle will be vaccinated and tested for interstate shipment.

Terms and Conditions

Cash or check day of sale with proper ID. Animals will be sold in accordance with the suggested guidelines of the American Simmental Association. Up to date breeding and calving information will be supplied the day of the sale. Any information announced the day of the sale will take precedence over the catalog.

Announcements

Announcements made sale day and from the auction block during the sale take precedence over printed material associated with this sale. Anyone attending the sale attends at his or her own risk, consignors or Classic Sales will not be responsible for any personal injury or loss while attending the sale.

Sale Registration and Payment

All buyer numbers will only be issued with a valid ID and payment is due day of sale. Cattle will not be transferred until paid in full. Checks and cash accepted.

Sexed Heifer Semen

Sexed semen is not 100% accurate, therefore consignors can not guarantee gender of resulting calves.

Note

The EPDs reported in this catalog are the Fall 2013 numbers, as reported by the American Simmental Association. Please reference Simmental.org for an explanation of the EPD changes.

Lazy H Burn Right T26

Lazy H Burn Right T26

The Burn It Up bloodline is genetics that have proven to be successful. Burn Right was successful in the show ring and the donor role. She was Reserve Grand Champion Female at the 2009 National Western and is still one of the most popular Built Right daughters in production. This is a great offering with these exciting sires. HOC Broker is possibly the most exciting bull in the breed. His sons and daughters have been dominating show and sale rings coast to coast. One Eyed Jack is a very popular new baldy with cutting edge genetics and pedigree. Final Answer has proven Angus genetics to make the popular SimAngus genetics that are in demand today. And Lock-N-Load has been very successful in the Lazy H program creating purple ribbons and high-sellers. Don't miss a great opportunity. Guaranteeing respective embryos if done by a certified embryologist.

We bought P13 from Mike Walters as a flush mate to JM Olivia, dam of Miley Cottontail. These homo-black Lucky Dice daughters of H25 are some of the best proven donors across the nation. The calf from this pregnancy will be a full sib in blood to Miley Cottontail. Help yourself to some of the hottest genetics in the breed right now. The pregnancy out of this sire and dam we sold at last year's Pa. sale resulted in a heifer calf. Recip cow is a purebred registered Simmental cow, ASA# 2485912, tattoo 16U, BD: 12/4/08. This cow is a homo-black ET daughter of our PowerDrive/ Black B80 donor and GW Lucky Dice. As a granddaughter of B80 you will be getting a second member of a nationally known cow family, as 880 is Miley Cottontail's granddam also.

No matter whether you are in the market for a top notch show heifer or a tremendous broad cow, here she is. Sheza Legend would work wonderfully in a Simmental or club calf program. She has had lots of friends this summer. She has always been the one that people pick out because of her superior phenotype from her depth and spring of rib to her feet and legs. She also has great hair for the show ring. Sheza Legend is an embryo heifer that is full sister to BF Mr. Confidence, who won Denver National Western 2 years ago. How many people can say they own a female whose brother won Denver? Here's your chance, don't miss out!

This January 3/4 blood is a granddaughter of the Famed SVF STAR STRUCK S199 cow and is loaded with power. She's extremely cool on the profile, huge hipped, loaded with rib, great structured and as sound as they get. Snowy Night has all the makings to run big time anywhere in the percentage division. Great haired and ready to show!! As good as any I've raised and kid proof !! Potential Donor!!

MTV SWEET RENDITION is a deep bodied, wide based, structurally sound, easy keeping heifer. She is halter broke and being shown at KILE. She can be a potential club calf brood cow. Her half brother was sold at STARS AND STRIPES for 2600. MTV SWEET RENDITION"S mother is a small frame cow that produces nice calves. MTV SWEET RENDITION would make any 4-H or FFA child a great show heifer. Come to the sale and check her out.

Due 11-28-13 to Mr NLC Upgrade U8676 sexed heifer. I can't say enough about the productivity of this young, purebred cow- she breeds first time, every time A.I., and is due with her fourth calf well before her fifth birthday. Her calving ease and birthweight EPDs are near the top for the breed, and she has an API of 123. Honey Bee was one of our show heifers, and is gentle enough for any junior to handle, but has not been pampered as a cow, and will sell in her working clothes. We have had great purebred and percentage calves out of her, so she will surely work in any program. Her new owner won't have to wait long for a return on his investment, PVSM Honey Bee is A.I. bred to Mr NLC Upgrade U8676, sexed heifer semen, and is due 11-28-13.

An own daughter of Goldmine that on dam's side goes back to the elite Deer Button cow – all kinds of top breeding on this one, plus a good heifer calf at side. Look long and hard at this cow/calf combo. Cow may be bred back by sale day.

Al'd 8/24/13 to CNS Dream On (2144976). Puff Girl is an own daughter of the great Power Drive and a maternal granddaughter of the great Harvest Kitty cow that did so many great things at the former Havenwood Farm. This cow is an easy keeper and bred to Dream On. Her steer calf at side by Zinger would make a good show calf next season.

SVJ Red Adair A70 is a sight to behold. What thickness, volume and style as well as moving free and easy. The Wild Fire sired cattle have been winning all over the country - from the PA Farm Show to our Reserve Champion female at the National Western Stock Show 2013. These are some of the most predictable genetics that you can find.

This young black baldy 3/4% bull offers the combination of "eye catching" looks, structural soundness and ease of movement. His quiet disposition is a bonus. His dam has produced several champions including KILE and Ohio "Best" Champion. His dam goes back to Burns Bull x339U and Leachman Saugahatchee. Will make awesome % or purebred cattle.

TRIPLE DELIGHTFUL P17L

After Shock is a real neat package. He may only be a March bull, but he is sure to do an amazing job in the spring of 2014. He has that blaze face that seems to be in high demand both in the seedstock market and at the yards as feeders. He is wide based, big middle, smooth in his shoulder and front end while staying sound from the ground up. We purchased his dam from Hudson Pines in the 2012 sale and After Shock was her first calf. Buy this bull with confidence when you study him and his genetic makeup going back to the breed's leading cows.

If you are in the market for a fall born, yearling black baldy bull that will be able to breed a big group of cows either this fall or next spring, be sure to check this guy out. He is out of an awesome 3C Macho daughter who goes back to the legendary Ebony Antoinette female. Movin On's sister was one of the high selling heifers at the Stars & Stripes sale. She sold to Canada and they couldn't be happier with her. She's a great producer for them and he could do the same in your herd.

When we evaluate cattle, we want to start from the ground up and this Grandson of Lazy H Burn Baby Burn does just that. Great footed, big boned, really sound structured and just so good and smooth on the move. Burnin' Fatt is as good as any Purebred I've seen through the front portion of his body and he's a Fatt Butt son. Plenty of thickness and loads of style. Just a really great made complete type of a bull. He has been shown many times and is super gentle... A big softy. He's bred some cows for me and knows his role. Buy with confidence here.

Masterful is a purebred Upgrade son that is homozygous black and double polled. This bull combines calving ease with grat growth and maternal traits. He is the 5th generation of this cow family born on oru farm, and his great-great-granddam is still in production. Notice his API of 123 (top 30%) and TI of 73.5 (top 15%). PVSM Masterful's calves will come easily, grow well, and have excellent muscling, whether he is used on purebred Simmental or commercial cows.

Outstanding genetics in this solid black halfblood bull. Sired by the great Angus bull "Payday" and out of a Drema On x Powerstroke dam who is a flushmate to the Grand Champion female of the 2010 PA Farm Show. This line of genetics consistently produces top quality cattle and this yearling bull will do the same for your herd.
