

## Feature Lot

### 31. Pick of 2014 Calf Crop

Offering the opportunity to have your choice of the 2014 Frosty Springs calf crop. We wanted to offer our best, and what better way than to give you the freedom to pick the one you like best to take home. We began raising Simmentals in 1985 and we have had great success in the PA Fall Sale and Beef Expo and consistently produce show ring quality and donor females and our bulls are high growth, easy calvers that are sure to add the pounds to your calves while maintaining a complete package. We have purchased replacement females that were sale toppers in the PA Fall Sale and spring Beef Expo and we also have several animals that are SilverTowne genetics both on the sire side and the dam's. This year we have used STF Distinctive W739, STF Maverick YU29, FSF Showman 8ZCO and AI sires STF Quigley XUM4 and STF Mr. 19LZ. We will have 55-60 black and red calves that range from 1/2 blood Red Angus/Simmental to purebred Simmental. If you choose a heifer calf that is for a junior exhibitor, we will halter break her for the fall. Choice must be made by Aug 1st. Pick up is between Sept 1st and the PA Fall Classic at the end of October. Half of payment is due at purchase and remaining balance is due when the calf is picked up.
