

Pennsylvania Fall Classic

October 24, 2009 – 1:00 PM

**Greene County Fairgrounds
Waynesburg, PA**

**Genetic Lots • Open Heifers
Bred Heifers • Cow/Calf Pairs • Bulls**

Welcome Fellow Breeders...

To the 2009 PA Fall Classic in Waynesburg. This is one of the longest running consignment sales in the East. We have a group of dedicated consignors and a strong following from buyers. This year we are excited to welcome several new consignors bringing some of their best to the sale. This year's offering is nothing less than you would expect from the Fall Classic.

We have a strong set of bred's coming from the heart of some consignors' herds. We have the largest number of bred lots ever to consign to the sale, but the quality runs deep. Several of the heifers are straight from the show strings and bred to the breeds most popular sires. If you are looking for replacement females or herd builders take a look at these lots. The open division is just as strong with many heifers that could be competitive in the ring and then head straight to your front pasture. We have a strong set of bulls that will be ready for heavy service next year and a few are ready to use this fall.

Next summer, the PJSA will be hosting the Eastern Regional Classic. This is an exciting event for the Association to take part in and, as always the PJSA has an excellent set of hardworking juniors. If you've ever thought about going to a large junior event, this will be a great opportunity to partake in and have a chance to meet kids from all over the eastern United States and make memories that will last a lifetime! And the PA Fall Classic has a set of open heifers that would make great candidates for the event. But also remember to support the juniors in the donated lots of the donkey and the artwork of C. J. Brown. The juniors will also be serving lunch sale day and will accept donations in return. Let our juniors know that we support them!

Sincerely Yours,
Chris and Kellee Brown

Old fashioned, rock-solid Angus genetics at their best, the proven donor dam of these embryos has been a great investment for SVJ Farm. She was a special selection by Clint Woodrow as his favorite female from the entire Eby Angus Ranch and she is a sight to behold. There is so much depth, mass, and sound movement here that we'll stack her against any foundation Angus cow you want to produce. We are using this special female for F1 production and we think the quality speaks for itself. Select from embryos by the National Western Champion Trademark, Wildfire's Dream, or the time-tested Meyer 734. There is no way to lose when you start with a female like this one!

All three pregnancies were bred 7-7-09. This is a fantastic opportunity to get in on breed leading genetics. Selling choice of three pregnancies that are sure to be fail safe matings. No matter which one you choose to bring home on sale day, rest assured that you have genetics that are going to perform, be it in the show ring or the pasture. All three recipients are black registered purebreds that settled first service and have always made great mama cows. This is a great chance to improve your herd with a pregnancy from a superior cow in the breed, in addition to gaining a solid brood cow that will go to work in your pasture. So make sure you are in the bidding on this offering. There is plenty of style, predictability and ribbons to be obtained with any of the three!

Pasture bred to Roses Dream Boy 306 on 7/9/09.

Proj. EPDs: 8 -1 25 41 5 2 15

9A - ASA# 2489985 Sex: Heifer BD: 6/2/09 BW: 73 Sire: Roses Dream Boy 306 CE: 8.0 BW: -1.1 WW: 24.5 YW: 40.4 MCE: 5 MM: 2.2 MWW: 14.4 This is an interesting cow-calf combination. The dam of this cow, from McClure Mills Farms, was a full sister to their PA Farm Show champion. The calf is sired by Roses Dream Boy 306, a "clubby" Dream On X Meyer 734 moderate-framed bull with style and muscle. Alert was bred back the same way for a middle April calf (observed breeding 7/9/09 with Passover). Here is a first-calf heifer combination with years ahead of it.

AI bred to SVF/NJC Mo Town M2126 on 4/16/09.

Proj. EPDs: 9 0 16 44 6 8 16

Power Puff was a successful show heifer for Cody and has developed into a solid, profitable cow. So far to date Power Puff has produced 2 heifer calves with her first calf being sold to a junior in Indiana. We are reluctant to sell her but we are retaining a full sister in our herd. She sells bred AI - April 16 to SVF MoTown

COUNTRY SHADOW N09

Oversight is a working man's bull. He is a square, heavily muscled, stylish blaze-faced Pathfinder x Venom 101 bull with calving ease and maternal calving ease EPDs both in the top 15%. He has never been pampered - born during Summer to a first-calf heifer, wintered on first-cutting round bales, used as a "teaser" bull for AI heat detection on Spring pasture, then used by a neighbor during July and August to clean up his club calf herd (he settled them on the first service). Until September, he has not gotten significant amounts of grain. He is the service-hardened bull for the job.

WLE POWER STROKE MEYERS RED TOP
 GWS EBONY'S TRADEMARK 6N DRAKE MISS P36D
 NJC EBONY ANTOINETTE DRAKE MISS P36

This red baldy bull's pedigree speaks for itself. He is out of the famous Lazy H donor cow Drake Miss P36D and Ebony's Trademark. He has a very gentle disposition and would make a great herd bull.

Drake Miss P36D - Dam to Lot 70

71A - Donkey

Donated by Greg Stewart.

Proceeds to go to PJSA to help fund the 2010 Eastern Regional held in Meadville, PA.

71B - Framed Picture

Donated by Niklen Valley Farm, Galen & Nichole Graham and family. Proceeds to go toward the 2010 Eastern Regional Classic. It is a framed, numbered picture by artist C.J. Brown. It is a winter scene with cows in a corn stalk field.

ASA SUGGESTED SALE TERMS AND CONDITIONS

BIDDING AND APPLICABLE LAW: All cattle listed in this offering comply with prevailing sale terms and conditions as set forth by the laws of the state wherein the sale is conducted. There are no warranties, expressed or implied, by either the auctioneer or consignor, except as set forth herein, as to the merchantability of fitness for any particular purpose of any animal offered in this sale. The right to bid or the right to reject the final bid, if done before the hammer falls, is reserved for all sellers unless otherwise announced from the sale block or as prohibited by law in the state wherein the sale is being conducted.

ANNOUNCEMENTS: Any change of information other than in the catalog will be announced from the auction block and such announcements shall take precedence over printed material. All statements made from the auction block or those made by the seller (in private treaty) must be documented by seller if requested by the buyer at time of sale.

TERMS: Terms of sale are cash unless satisfactory credit arrangements have been made with the seller previous to the sale of any animal so affected.

PURCHASER'S RISK: Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold; except it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of twenty-four (24) hours after the sale, whichever occurs first.

HEALTH REQUIREMENTS:

1. All cattle entered for sale must meet the health regulations of the state in which they are sold. All other agreements regarding the health of the animal will be between the buyer and seller and should be documented in writing.
2. If sale cattle are returned to the seller for an adjustment, they must meet the health requirements of the state they are returned to.

CERTIFICATE OF REGISTRY: Each animal which is catalogued, offered and sold as a registered animal shall have a certificate of registry available at time of sale. When an animal is sold as "eligible for registry" or "registry applied for", the seller shall be responsible for obtaining the certificate of registry and for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

IDENTIFICATION: Each animal at time of sale must have a readable tattoo or brand corresponding to that shown on the certificate of registration.

AUTHENTICITY OF PEDIGREE: When an animal, through parental validation, is determined to have an ancestry other than that reported on the registration certificate, the buyer shall be entitled to a refund of the purchase price from the seller upon return of the animal to the farm of the seller at the seller's expense. The animal in question, at the buyer's option, may be exchanged for another animal of equal value, or if agreeable with the buyer, the seller may have the certificate returned to the buyer. Any adjustment provided herein, if selected, shall absolve the seller from further liability for authenticity of pedigree to the buyer.

BREEDING GUARANTEES AND DEFINITIONS:

1. Females are guaranteed to be breeders, with the exception of:
 - a) Female calves sold at side of dam
 - b) Injury or disease occurring to the animal after time of sale
 - c) Gross negligence or willful misconduct on the part of the purchaser
 - d) Females used in ovum transplant after time of sale
 - e) Cows sold with calf at side or a female that calves after sale to a breeding prior to the date of sale
2. Bulls are guaranteed to be breeders (definition as the ability to settle healthy cows by the time the bull is 18 months of age) with the exception of:
 - a) Bull calves sold at side of dam
 - b) Injury or disease occurring to the animal after time of sale
 - c) Gross negligence or willful misconduct on the part of the purchaser
 - d) Bulls shown competitively after sale
3. Any guarantees with respect to the ability to freeze semen shall be made by separate agreement between buyer and seller.
4. Safe in calf females are females that have been diagnosed pregnant by a competent veterinarian, and are pregnant at time of sale.
5. A bred female is a female known to have been served by a bull either by natural breeding or artificial insemination, but it does not necessarily mean that the female is safe in calf to that service.
6. A pasture bred female is a female that has been pastured with a designated bull and has been exposed for the time stated, but it does not necessarily mean that this female is safe in calf to that bull.
7. An open female is a non-pregnant animal.
8. Calves sold off their dams (split pairs) shall carry the full breeding guarantee.

PRIVILEGE OF PURCHASER TO EXAMINE: The purchaser of a female animal may have her examined within twenty-four (24) hours after the fall of the hammer and prior to removal from sale premises. The pregnancy status of breeding status of an female so examined, when found not to be as represented at the time of sale, is cause for the female to be returned to the seller as unsold.

EMBRYO TRANSFER:

1. Sellers should provide upon request a complete history of embryo transfer activity for any female offered for sale.
2. Withholding information on the existence of frozen embryos at the time of sale would be considered an unethical practice.

HORNED-SCURRED-POLLED:

DEFINITIONS:

1. **HORNED** — An animal with a horn growth affixed to the skull that has or has not been removed.
2. **POLLED/SCURRED** — An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not become affixed to the skull at an older age.
3. **POLLED** — An animal with absence of horn growth. (An animal can have scurs and still be genetically polled.)
4. **SMOOTH POLLED** — A smooth-polled individual has no scurs and does not develop scurs later in life.

GUARANTEES:

1. If an animal is sold as polled or polled/scurred and proves to be horned, the seller shall be obligated to refund the purchase price upon return of the animal to the farm of the seller at the expense of the seller or may be exchanged for a polled animal of equal value whichever is acceptable to the buyer. The buyer has thirty (30) days from date of sale to notify the seller that an adjustment is in order.
2. If an animal is sold as smooth-polled and proves to be scurred, the seller shall be obligated to refund the price upon return of the animal to the farm of the seller at the expense of the seller or at the buyer's option shall be exchanged for a smooth-polled animal of equal value.
3. If an animal is sold as polled and develops scurs, the seller will not be obligated to make any adjustment as a scurred animal is considered polled.
4. If an animal is sold as polled and has scurs, it shall be so announced at the time of sale that the animal has scurs. If it is not announced and the buyer finds before the animal leaves the sale premises that the animal has scurs, the buyer must notify the seller of the findings. The seller shall then be obligated to refund the purchase price.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

The following adjustments do not preclude the right of the buyer and seller to mutually agree upon other terms and conditions for settlement of any dispute.

1. All claims for adjustment or refund must be made in writing either six (6) months from the date of sale or no later than when the animal reaches 24 months of age whichever occurs later, with the exception of claims involving misrepresentation of service sire or as otherwise provided herein.
2. In the event an animal is claimed to be a nonbreeder, the animal may be returned to the farm of the seller, at the buyer's expense, if in good physical condition, and the return is in compliance with the health requirements of the seller's state. The seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove the animal is a breeder. If at the end of six (6) months the seller is unable to prove the animal is a breeder, the seller shall, at the option of buyer, replace the animal with another equal value or refund the purchase price. Either option shall be deemed full satisfaction and settlement.
3. If a female is sold as "safe in calf" to a given sire or sires on a specified date or dates and proves not to be as represented, the buyer is entitled to a refund of the purchase price from the seller upon return of the animal and resulting progeny thereof to the farm of the seller at the seller's expense.
4. If a female is sold as "open" and proves to be with calf at time of sale and examined pregnant within sixty (60) days after sale, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever acceptable to the buyer. It shall be the obligation of the seller to bear any expenses incurred for transportation of the animal in question to the farm of the seller.

ETHICS: The Association considers it an unethical practice to offer for sale genetic material or an animal which is known to carry a deleterious genetic factor as defined by ASA without first informing the potential buyer or buyers of this fact. Any advertising, descriptive material or pedigree initiated by the owner of a proven carrier of a detrimental genetic factor as defined by ASA shall include a statement defining the deleterious factor or factors which the animal in question possesses. Any effort to conceal such information is considered to be equally unethical.

LIMITATIONS OF OBLIGATIONS:

1. If the aforementioned suggested terms and conditions are adopted, they should constitute a contract between the buyer and seller for each animal sold under these terms, as such, should be binding upon both parties. Animals resold following purchase in a sale shall constitute a separate transaction and the privileges and obligations of the original two parties connected thereto are not covered by the terms and conditions of sale.
2. The American Simmental Association, its directors or employees are not in any way responsible or liable for enforcing the suggested terms and conditions of any agreement involving transactions between buyers and sellers.
