DEPARTMENT OF AGRICULTURE

**COMMONWEALTH OF PENNSYLVANIA**

DEPARTMENT OF AGRICULTURE | RUSSELL C. REDDING, SECRETARY

March 2017

Dear Agriculture Friends,

Welcome once again to the Pennsylvania Department of Agriculture's Performance Tested Bull Sale. The sale is the culmination of the 112-day testing program conducted at the department's state-of-the-art Samuel E. Hayes Jr. Livestock Evaluation Center.

The bulls whose data is detailed in this catalog and who will cross the auction block are the best prospective herd sires that Pennsylvania and the rest of our region have to offer. They've been vaccinated, evaluated, passed a breeding soundness exam, and are ready to improve herds throughout the Northeast and Mid-Atlantic, as bulls from this test have done for decades.

This sale is in its 44<sup>th</sup> year because of vision, hard work, and commitment – the vision of those who saw the need for this test and for the facility we have today, the hard work of those who bring that vision to reality each March, and the commitment of consignors, buyers, and industry organizations who make the sale successful each year.

Plenty of partners and contributors to this program deserve our thanks:

- Auctioneer John Spiker
- Consigners, bidders, and buyers
- Livestock technical committee
- The Pennsylvania State University
- Ringmen
- Sale Committee
- Pennsylvania Animal Health and Diagnostic Commission
- Pennsylvania Beef Council
- Pennsylvania Cattlemen's Association, and
- Pennsylvania Livestock Association.

Together, our work allows this center to remain a hub for improvement in the beef industry, helping to develop more functional, efficient, and profitable cattle that produce quality beef that consumers demand. It's an important partnership, and I thank you for your support now and always. Enjoy the sale.

Sincerely,

A handwritten signature in blue ink that reads "Russell C. Redding".

Russell C. Redding

DEPARTMENT OF AGRICULTURE

## ANNUAL PERFORMANCE BULL TEST

### Special Representatives

- Honorable Russell Redding, *Secretary of Agriculture*  
Dr. David Wolfgang, *Director, BAHDS, Department of Agriculture*  
Dr. Richard Roush, *Dean, Penn State College of Agricultural Sciences*  
Dr. Terry Etherton, *Department Head, Penn State Animal Science*  
Dr. Lester Griel, *Attending Veterinarian, Penn State*  
Jim Cowell, *President, Pennsylvania Cattlemen's Association*

### Sale Committee

- Dr. Lester Griel (Technical Committee), *State College, Centre Co.*  
Benjamin Williamson (Technical Committee), *State College, Centre Co.*  
Joe Messick (Technical Committee), *Middletown, Dauphin Co.*  
Dr. Elizabeth Santini (PDA Representative), *Region 5 Office, Martinsburg, Blair Co.*  
Delbert Voight, *West Sunbury, Lebanon Co.*  
Jesse Alspaugh, *Richland, Lebanon Co.*  
Paul Slayton, *Bedford, Bedford Co.*  
Ms. Emily Bomgardner, *Annville, Lebanon Co.*  
Mr. Garret Love, *Linesville, Crawford Co.*  
William Shoemaker, *Manns Choice, Bedford Co.*

### Breed Representatives

- Gene Trowbridge, *President, Pennsylvania Angus Assoc.*  
Paul Slayton, *American Hereford Assoc. Board*  
Laurie Meyers, *President, Pennsylvania Simmental Assoc.*

<b>Auctioneer:</b>	John Spiker, <i>Jane Lew, W.Va.</i>	304-677-0255
<b>Ringmen:</b>	Robert Grove, <i>Sommerville, Va.</i>	540-850-0266
	Charlie Strickler, <i>Banco, Va.</i>	540-718-7793
	Scott Weller, <i>Staunton, Va.</i>	540-885-5486

## General Information

### 1. BULL MANAGEMENT

Participating bulls completed an official 112-day performance test at the Livestock Evaluation Center (LEC) on Feb. 21. Prior to the start of the test, the bulls were allowed a 21-day adjustment period. For the test, they were fed a TMR ration of corn silage, corn, dried distillers grains, soybean meal and additional minerals. Following test completion, the bulls were limit-fed TMR and grass hay.

### 2. PERFORMANCE RECORDS

Each cataloged bull features a complete performance record, found beneath the bull's pedigree.

#### A. PREWEANING PERFORMANCE

1. Adjusted 205-Day Weight – standard weaning weight, using delivery weight adjusted for the age of dam, to treat bulls uniformly
2. Weight Per Day of Age – weight divided by age at arrival

#### B. 112-DAY TEST PERFORMANCE

1. Final Weight – actual weight off-test (the average of weights taken from 2/20/17 and 2/21/17)
2. Daily Test Gain – total test gain divided by 112 days
3. Rib Fat – ultrasound measurement in inches of fat cover over the 13<sup>th</sup> rib
4. Ratios – percentile comparisons of individuals against average of breed groups. A ratio of 100 is average.

#### C. YEARLING PERFORMANCE

1. Adjusted 365 Day Weight:

$$\frac{(\text{Final Test Weight} - \text{Birth Weight})}{\text{Total Days of Age}} \times 365 + \text{Birth Weight} + \text{Age of Dam Adjustment}$$

2. Weight Per Day of Age – final weight at end of test divided by age in days.
3. Ratios – see above.

#### D. INDEX RATIO

$(.50 \times \text{Average Daily Gain Ratio}) + (.30 \times \text{Adjusted 365 Day Weight Ratio}) + (.20 \times \text{Breed Terminal Index}) = \text{Individual Index}$   
 Individual Index divided by the average breed index = INDEX RATIO.

### 3. HEALTH AND FERTILITY

Participating bulls are of sound health and reproductive status and were tested for BVD. Bulls also tested negative within 30 days of sale date for Tuberculosis and Brucellosis. Out-of-state buyers should contact their state veterinarian for prior permit when necessary.

### 4. FRAME SCORE

Measured hip height is adjusted to 365 days of age and converted to frame size or body type on a scale ranging from one to nine where one is extremely small or early maturing while nine is extremely large or late maturing with five being average for the British breeds and six the average for the continental breeds.

Frame Score	1	2	3	4	5	6	7	8	9
Minimum 365 Day Hip Height (in.)	41	43	45	47	49	51	53	55	57

### 5. EMBRYO TRANSFER CALVES

Embryo Transfer (ET) calves did not receive dam adjustments when calculating the adjusted 205-day weight.

### 6. PELVIC SIZE IN BULLS

The heritability of pelvic size in bulls is high at 0.60. This indicates that differences in traits may be readily transmitted to female offspring. Breed is not an important factor in pelvic size for bulls of similar size and weight. Considerable variation in pelvic size is found within breeds, so selection does cause changes in the trait. The yearling adjustment factor for pelvic size in bulls is 0.25 cm. per day. Birth weight has a low correlation with pelvic size, so the traits can be selected independently.

### 7. PERCENT IMF

Percentage of intramuscular fat (marbling score) has been adjusted to 1 year of age using the Beef Improvement Federation formula.

### 8. HORNS

Angus bulls are polled. All other bulls that are smooth polled will be listed as polled. Bulls with scabs or scurs will be listed as polled/s while dehorned bulls will be listed as dehorned.

### 9. CARING FOR THE BULL YOU PURCHASE

- A. Allow your bull time to shed excess condition ahead of breeding season for optimal performance. Feed hay and introduce grain gradually to transition the bull to your feeding routine.
- B. Keep young bulls away from mature bulls.
- C. Limit the number of cows bred in the first year. Older bulls may breed 20-25 cows while younger bulls may breed 10-15 cows.
- D. Ensure that your young bull receives proper nutrition through the winter months so he will continue to grow and reach his genetic potential.

#### NOTE:

Some sale bulls have ultrasound scan information that was not adjusted by their respective breed associations due to age at scanning. These bulls are marked with "\*" at the end of the actual scan figure. These are considered actual scans.

## Sale Order

All bulls will sell by breed in this order: Angus, Simmental, Hereford, Red Angus, Shorthorn, British White Park, Charolais, Limousin, LimFlex, SimAngus. Sale order within breeds will be by index ratio. Bulls are cataloged in sale order.

## Calving Ease

Sale bulls may be identified as "Calving Ease Bulls." These bulls must have a calving ease direct (CED) EPD among the most desirable 33 percent and a birth weight (BW) EPD among the most desirable 50 percent of the national breed population listed for non-parent sires. For breeds not publishing CED, the birth weight EPD in the top 50 percent will be used. This distinction is noted in the lower right corner of a bull's pedigree in the catalog.

## Health Procedures

A summary of the health related procedures performed on the bulls offered for sale:

### Pre-Admission Testing and Immunization

- All bulls accepted for the testing program tested negative for Brucellosis, Leptospirosis (five strains), Anaplasmosis (cELISA test), Bovine Leukosis Virus and the Bovine Virus Diarrhea Virus (blood test).
- All bulls received a dose of USDA-licensed products against the four common pulmonary viruses of cattle (IBR, BVD, PI3 and BRSV) and products for controlling Mannheimemia hemolytica and Histophilus somnus.

### Procedures after arrival at the center

- Upon arrival at the center the following immunizing products were administered:
  - Two doses of inactivated IBR, BVD, PI3, BRSV and Histophilus somnus
  - A single dose of Mannheimemia hemolytica product (One-Shot®)
  - Two doses of 8-strain clostridial product
  - One dose of inactivated rabies product
- Prior to the sale all bulls received a booster dose of the inactivated pulmonary product.
- All bulls have received a breeding soundness examination performed according to the standards established by the Society for Theriogenology. All bulls in the sale have received a passing classification in that examination.
- All bulls in the sale have been determined to be non-carrier status of any breed specific genetic defects either by pedigree or by genomic test through their respective breed associations.
- All bulls in the sale are tested for Tuberculosis, Brucellosis and Leukosis within 30 days of the sale.

## Hauling

Assistance with sale-day transportation of bulls is available on a limited basis. Many bull consignors have offered to provide transportation to their area at an affordable price. If you have questions or concerns about transportation of a bull, please contact the LEC prior to sale.

## Beef Quality Assurance

All consignors participating in the 2016-2017 Performance Test Sale are in the **National Beef Quality Assurance Program**.

## Bull Videos

View video of the bulls prior to the sale at [www.livestockevaluationcenter.com](http://www.livestockevaluationcenter.com).

**Sale will be broadcast online through [Cowbuyer.com](http://Cowbuyer.com).**

Online bidding questions: 336-363-4639

## USING EPD INFORMATION FOR MORE ACCURATE SELECTION

Ben Williamson

Penn State College of Agricultural Sciences Department of Animal Science

The Expected Progeny Difference (EPD) is an expression of how future progeny of a bull is expected to perform for a particular trait compared to other bulls of his breed. It is calculated from a complex statistical procedure using the animal's own record plus that of its progeny and relatives. As technology has advanced, calculations used to create EPDs have improved and now may include the genetic makeup of the individual animal to as a means of improving its accuracy. Bulls that have this information included into their EPDs are noted in this catalog.

In today's era, there are EPDs that represent various traits affecting production and the bottom line of the cow herd. With so much information, how do we know what numbers to focus on? It depends on the needs of the cow herd, and the traits in which create revenue and insure profitability. For example, if you sell all of your calves at weaning and are mating these bulls to heifers you would select bulls that have high calving ease and weaning weight with low birth weight EPDs. If you are focused on creating replacement females, you may concentrate on maternal traits. Whatever your needs, you will focus on that information.

With no single trait encompassing every need for your operation, it can become challenging to balance all of our selection needs. To aid in simplifying this task, several breed associations have created economic indexes for both maternal and terminal focused production. These indexes take into account several traits that ultimately affect profitability, and are weighted to the traits with the most influence. Like all selection practices, this one number still does not enable us to have one point of focus but can aid making all the data easier to interpret.

In an effort to include genetic merit into ranking the bulls on test, we have included each breeds terminal index into our equation. The reason for using the terminal index is that incorporates all of the genetic traits that we validate through the test, including post-weaning performance and carcass traits. As a result, there is a greater spread in the bulls' performance index. As always, the bull with the highest performance index may not be the best fit for your operations needs and goals. Be sure to focus on the information that will aid in the improvement of your operation and adds dollars to your pocket.

### Breed average EPDs for non-parent sires: All EPDs listed for sale bulls are 2/24/17

Angus	BW = +1.2	WW = +48	YW = +85	Milk = +24	CED = +6	angus.org
Simmental	BW = +1.8	WW = +62.2	YW = +90.9	Milk = +21.2	CED = +9.3	simmental.org

### Terms and Conditions of Sale

1. Sale payments should be made using cash or check. Any owner of a bull qualified for sale requesting that payment be made in cash rather than by check must first do so in writing to the Pennsylvania Department of Agriculture Livestock Evaluation Center prior to sale day. This condition will then be announced prior to the sale of that animal. All checks must be made payable to the "John L. Spiker Auctions LLC." No bull may leave the premises until properly paid for.
2. Each bull will be sold to the highest bidder.
3. The auctioneer will settle any disputes regarding bids that may arise. This decision will be final.
4. Certificates of registry, where applicable, will be furnished and transfers will be made by the sale committee, at the seller's expense, to the purchaser within a reasonable time after the sale.
5. All bulls are at the seller's risk until sold and will be the buyer's risk after the sale. However, if not convenient for the buyer to remove the bull the afternoon of the sale, he will be cared for up to a maximum of 72 hours after the sale at the buyer's risk. After 72 hours there will be a nominal fee.
6. Health certificates will be furnished by the Pennsylvania Department of Agriculture.
7. All bulls are guaranteed breeders by the sellers only if properly cared for and not turned out for pasture breeding before the age of eighteen months. Any bull settling one-third of the healthy cows he breeds will be deemed a breeder. In the event a bull is determined to be a non-breeder, he may be returned at the buyer's expense within 6 months of the sale date or three months after the bull sold reaches the age of 18 months, whichever occurs later. In the case of a bull claimed to be a non-breeder, the seller is entitled to six months following the return of the bull in which to demonstrate that the bull is a breeder. If in that time the bull proves to be a breeder, he shall be returned to the buyer at the buyer's expense. If after testing the bull, he proves to be a non-breeder, the buyer and seller may make any settlement that is agreeable to both parties. However, the return of the full purchase price will in any case be deemed full satisfaction and settlement.
8. All consignors subscribe to the Code of Fair Practices as established by their respective breed associations.
9. All claims for refunds or adjustments for any reason must be made in writing within six months of the sale date. The return of the full purchase price in any case will be deemed full satisfaction and settlement. The only guarantee made by the owner is for breeding soundness or any conditions listed under the particular breed's Code of Fair Practices.
10. All bulls sell with full possession and full semen rights unless otherwise noted.
11. The above guarantee and terms of sale shall constitute a contract between the buyer and the seller for each bull sold and shall be equally binding upon both. Neither the Pennsylvania Department of Agriculture, the Pennsylvania State University, the Pennsylvania Cattlemen's Association, the John L. Spiker Auctions LLC, nor any other person or organization connected with the management of the sale assumes liability, legal or otherwise, except to help make any needed adjustments.
12. All persons attending the sale do so at their own risk. Neither the Pennsylvania Department of Agriculture, nor any other person or organization connected with the sale will assume liability, legal or otherwise, for the safety in the buildings, on the premises or behavior of the animals.

## 2017 PA Performance Tested Bull Sale *Friday, March 31*

9:30 a.m.	Bull Consignor Meeting
9:45 a.m.	Heifer Development Project Consignor Meeting
Noon	2017 Pennsylvania Performance Tested Bull Sale
Followed by	PA Simmental Spring into Excellence Sale
Followed by	PA Angus Finest Female Sale

### Thank You:

- **Dr. Lester C. Griel** for his veterinary expertise and continued support of the testing programs,
- The **faculty and staff** of the **Penn State College of Agricultural Sciences Department of Animal Science** for assistance and educational support,
- **Bull consignors and customers** for their faithful patronage and dedication to this performance testing program, and
- Allflex USA Inc. for product support.

PENNSTATE

#### **Directions to the Pennsylvania Livestock Evaluation Center:**

The center is between Pine Grove Mills and the Ag Progress Days site, approximately six miles southwest of State College on PA Route 45.

#### **Southeast – From Route 322**

Take the Boalsburg/Oak Hall exit to Route 45 West. Follow Route 45 West to Pine Grove Mills. Pass through the blinking light and travel approximately 2 miles. The Livestock Evaluation Center will be on the left.

#### **Northeast and Northwest – From I-80**

Take the Route 220 West exit. Continue to Route 322 East. Travel 322 East two exits to the Boalsburg/Oak Hall exit to Route 45 West. Follow Route 45 West to Pine Grove Mills. Pass through the blinking light and travel approximately 2 miles. The Livestock Evaluation Center will be on the left.

#### **Southwest – From I-99**

Take the Tyrone/Route 550 exit. Travel approximately 1 mile and turn left onto Route 550 East. Travel Route 550 East to Warriors Mark. At the stop sign in Warriors Mark, turn right onto Route 350 South. Follow Route 350 South to Route 45. Turn left onto Route 45 East. Travel Route 45 East approximately 6 miles, passing the Ag Progress Days site. The Livestock Evaluation Center will be on the right.
