Bred to GCF Mr Amigo (2360021). Consigning this red was a difficult choice for us, considering the cow family she comes from has done extremely well for us. However, we decided to share their productivity. Her granddam is the matriarch of our herd and with several of her daughters and granddaughters following in her footsteps. We decided to part with one of them. Ms Amber Rose. This young red cow is ready to produce, just like her dam and granddam. She is a milking machine with great great maternal instincts – even more exciting is her calf that she is due by the red bull Mr Amigo. Updated breeding information is available on sale day.
