SALE REGISTRATION AND PAYMENT

All buyer numbers will only be issued with a valid ID and payment is due day of sale. Cattle will not be transferred until paid in full.

ANNOUNCEMENTS

Announcements made sale day and from the auction block during the sale take precedence over printed material associated with this sale.

HEALTH

Cattle are vaccinated and tested for interstate shipment. Sexed semen is not 100% accurate, therefore the gender of resulting calves cannot be guaranteed.

EPDS

The EPDs reported in this catalog are the fall 2020 numbers, as reported by the respective breed associations.

LIABILITY

Persons who attend the sale do so at their own risk. Neither the owners nor the sale manager assumes liability, legal or otherwise, for any accidents, loss of property, or illness. Classic Sales is only an agent for the seller and has no responsibilities other than those involved in the sale.

Broker embryos **BASES LOADED "LOLA"**

1 STCC BASES LOADED

IVF RSF Embryos & Open Heifer consigned by **Full Circle Farms**

EMBRYO SIRE:

REMINGTON LOCK N LOAD54U

MR HOC BROKER

STCC BASES LOADED

STF NOSTALGIA 155Z

LOT 1 DONOR AND SIRE

IVF RSF Embryos & Open Heifer

Selling 3 Broker X Lola IVF RSF Embryos - A truly exciting and exceptionally rare embryo opportunity from one of the most proven females in our program. We are offering embryos by Broker out of our Lola donor, and as impressive as the full sister from this mating is, we wanted to give you the opportunity to invest into your herd's future. Broker needs no introduction. He is arguably the most famous sire in the breed for creating red-hided, high-quality show heifers. We believe this mating is especially intriguing, combining Broker's extra shot of look, extension, and style with the muscle shape, bone, dimension, and power that Lola consistently stamps into her progeny. Quite honestly, these are embryos we probably shouldn't be selling, as our original plan was to retain them all for our own use. If you know our program, you know Lola. She is quickly becoming one of the cornerstone donors in our operation and is making a tremendous mark through her progeny. Her calf crops have consistently been at the top of our heifer sales, with the likes of Ruby, Lady, Honey, Redman, and now her Broker daughter represented in this offering. The consistency of this cow is easy to appreciate. Lola is backed by a proven pedigree, being a daughter of STF Nostalgia, the high-selling donor at Trennepohl Farms and a former champion at the Indiana State Fair. Her granddam is the famous STF Onyx. Lola also did her own share of winning, earning division honors at NAILE, KILE, and the Pennsylvania Farm Show, along with countless jackpot breed championships. These embryos will register PB Simmental, adding even more value to an already exciting opportunity. Lola is a no-miss kind of cow, and we believe Broker may be one of the most exciting sires to ever complement her. We have tremendous confidence in this mating and believe it has the potential to produce the next generation of red-hided standouts. Take advantage of the opportunity to own these because this is a mating we may not offer again.

8.2	2.7	70.3	102.9	3.5	16.7	8.5	51.8	92.8	65.6

I would like to think that anyone who has followed our program—and thank you if that applies to you—would not be surprised to see that Lola has done it yet again! This Broker daughter is the epitome of what Lola does, and Phoenix may very well be one of her most exciting daughters to date. If you are unfamiliar with Lola, we would encourage you to take a hard look at the females and sire that have come from her influence. Our Lady donor, Ruby donor, Honey donor, and Redman stud sire, along with numerous others that are now being promoted, are all living proof of the consistency and quality Lola has been capable of producing. Phoenix carries that same unmistakable stamp. From the ground up, Phoenix is stout, powerful, and built with substance. She starts with big feet and plenty of bone, transitions into a robust rib shape with tremendous curvature, and ultimately ties together with a monstrous top that gives her the kind of dimension and power that is hard to find. Yet, for all of that power and substance, she remains smooth and maternal in her structure, with the kind of frontend that keeps her feminine and attractive with the big time SHOWRING HAIR. That combination is what makes her so intriguing. We expect Phoenix to carry on the legacy of her mother and sisters while writing a story all her own. We truly believe this is a female with the potential to become a major asset to someone’s program. Do not wait until she is pictured in the donor pen, surrounded by embryos and progeny, to decide you want a piece of her. Get in now. The opportunity to own a female like Phoenix is here today, and we have no doubt she will be much harder to buy once she has proven what we already believe she can do.

2A SIRE, 2B SIRE, MATERNAL SIB TO 2A AND 2B

Two sets of embryos
WINSLOW'S LUCKY LADY

IVF RSF Embryos

Selling 3 IVF RSF Broker and 3 IVF RSF Next Level - LOLA STRIKES AGAIN!! Lola progeny have consistently been some of the most desirable and influential animals within our program. It is difficult to know if we have ever had—or will ever have—a donor that stamps her influence as consistently as Lola. Our Ruby Red donor, Honey, Lady, and promotional sire Redman are just a few of the prime examples, with even more future donors and sires carrying her influence on the horizon. "Lady" is previous high seller at the Fall Classic and backed by the great Something About Mary sire and combines the longevity, style, and grace that both sides of her pedigree are known for. She enjoyed a highly successful show career for Carter Brown, proving herself in the ring before stepping into her role as a donor. This exceptionally soggy-made red female combines incredible hair, disposition, and phenotype with the kind of genetic reliability that makes her a true asset to any program. Lady represents another exciting chapter in the ever-expanding story that these genetics continue to write for us. In every facet of life, consistency is key and Lady exemplifies it. Mating her to Broker and Next Level are one's we are especially excited to offer. Few sires have demonstrated the continued consistency and ability to produce elite progeny that Broker and Next Level have. These matings bring together proven genetics from both sides of the pedigree, and we fully expect the resulting progeny to carry forward the traditions of quality, consistency, and longevity that have made these bloodlines so successful. Progeny will register Purebred Simmental, with a high likelihood of producing red baldies. We believe this mating has tremendous potential to produce the next generation of program-defining cattle.

HFSC FOXY LADY HF6

IVF RSF Embryos. Selling Choice of 3 IVF Sexed Female Embryos-Foxy Lady X Irish Whiskey OR Foxy Lady X VCL Foresight.

Foxy Lady who was one of the most dominant show heifers on the east coast. She was named breed champion and/or supreme champion over 15 times in 7 different states. Her calf crop is always some of our best, highlighted by a \$15K Broker daughter, \$12K Sam daughter, \$12,500 BOE Garth daughter, an 11K Remedy Daughter, an 11K County O daughter, and a 10K BOE Epic daughter. The choice of these two matings gives you the option for new school look in the Irish Whiskey or the old school proven top sellers in the Foresight females. Foresight sired heifers are known for their added eye-appeal, natural thickness, and extra extension while the Irish Whiskey mating combines some of the most proven and successful genetics the show cattle industry has to offer. They are going to be quite a buzz when these hit the ground and we expect them to be getting a lot of attention. Get in while we are still offering these. Buy with confidence. Just imagine baldy Whiskey daughters running around your pasture. Guarantee (1) 60 day pregnancy if transferred within (1) calendar year of purchase. Implant must be done by AETA certified embryologist. Shipping arrangements need to be made within (90) days of purchase. Embryo packages can contain both grade 1 and grade 2 embryos and have had equal conception results with both."

IVF RSF Embryos

Selling Choice of 3 IVF Sexed Female Embryos out of CLAC Black Satin 151J and Woodford. Satin gets attend wherever she goes, and for good reason. We value cow families above all else and we are very fortunate to be able to own that we think is why the Simmental breed continues to exceed standards. The Satin calves are ones visitors are drawn to in the field, and her heifers have made excellent cows, as well. We have used several matings on Satin and cannot find a dud anywhere. Her offspring have been many of our sale toppers and show ring successes. As we have been, we took another group of calves to some shows and the Satins have done very well and we have been so excited for the buyers of our Satins to have successes, as well. We love to see them! Selling 3 IVF RSF embryos and guaranteeing 1 90-day pregnancy if work is performed by a certified technician.

IVF RSF Embryos

Selling 3 RSF IVF Embryos - Foxy "Missy" has been very influential in our program here at Cassyle Valley. From the daughters that have made their way into our replacement pen, to some of our highest selling females offered in the sale ring. This girl just doesn't miss regardless the mating. The angle of her blade and her extended front end makes Missy so good in her front one third. With her massive rib shape and good footedness it's a wonder why she hasn't found her way to the donor pen sooner. Collecting such a large amount of Oocytes on her very first flush made it easy to mate her with two of the all time greats, MR HOC Broker and Bet On Red! Offering one set of 3 RSF IVF embryos for each mating on sale day! Guaranteeing one 60 day pregnancy if done by a certified Embryologist within 1 year of purchase. Embryos are available for pick up at the sale or shipped from TransOva.

Destiny is another heifer linked directly to the Hudson Pines Legacy! Her dam Lovely is a daughter of the famous HPF Right to Love cow. Since I couldn't get the Right to Love cow, I bought her daughter and put her in my donor pen. Destiny is the result of a flush to the great Coping with Destiny Bull that has made so many winners in the show ring and great cows in the front pastures. I feel that this heifer has a great show career ahead of her. If she had been a little older, she would have been in our show string for sure. She has no holes in her phenotype or soundness and is a real puppy dog. Check out her look, pedigree and attitude and you will want her for yourself. Sells broke to tie, wash and clip. Has been started on halter training with great results. This girl can do it in the ring for your junior then produce some of the most sought-after genetics available!

I am a fanatic about Hudson Pines Farm cattle. When I got the chance to purchase Cream Soda, I immediately put her in our donor pen. Soda Pop is the result of a flush to the great Coping With Destiny. She is everything we could have wanted from that mating. She checks all of the boxes in phenotype and soundness, and I expect to be as large framed and soggy bellied as her mother. She was a bit too young for this years show string so she sells broke to tie, wash and clip and has been started on the show halter with good results. Take a hard look at what she has to offer. These direct HPF heifers are hard to come by, and everyone knows that Cream Soda was one of their best! Bid with confidence on what this girl can do for your show string and front pasture!

It's hard not to notice this red ½-blood female when she steps into the pen. She has a striking profile with plenty of length of body and shape through her rib, while maintaining a great set to her hock. Sired by SLIK Me Too and out of an Innocent Man x Runaway Bride female that was previously shown by Full Circle Farms, she has an exciting combination of look, structure, and pedigree. We think she has all the right pieces to be fun in the show ring and, more importantly, develop into a productive female when her show career is over.

This April-born heifer is long-bodied and extended through her front end, tying high into her shoulder with an attractive look from the side. She may be a little green right now, but we think her best days are ahead of her. Sired by New California, a County O x Boots son, she is also backed by a cow family that has worked well for us. Her dam was a former show heifer for our family and has proven herself in production, consistently putting a good calf on the ground. This heifer is another example of just that. Good-mannered with plenty of development still to come, we're excited to see what her future holds.

Leap of Faith is just like a good whiskey—bold, smooth, and impossible to forget. This young female is an absolute attention getter and one you simply cannot miss. Her extra chrome and incredible hair coat immediately draw you in, but it is the combination of her look, substance, and pedigree that makes her a truly intriguing female. Her dam was a Quantum Leap x C502 (Broker x Cinderella) female that was a past high seller at the Stars and Stripes Sale and has continued to get things done. That pedigree brings together some serious cow-family power, stacking Summer, H25, and Cinderella into one attractive, kid-broke package. It is hard to find that much proven influence and maternal predictability wrapped up in a female that is this fun to look at and this easy to appreciate. She has the kind of look that will make her fun in the show ring and the genetic backing that gives her a legitimate future beyond it. We believe this is a female that can make an impact for a young exhibitor while also providing plenty of upside for a serious breeding program. She is the kind that will be easy to get excited about now and even easier to appreciate as she matures. Do not be the one who overlooks Leap of Faith. There is a lot of good whiskey in this bottle, and we believe someone is going to be awfully glad they took a chance on her.

What an exciting way to get things started with the first set of ET calves from out WCCO Boots 403L donor. Greatness runs deep in the Boots family. CVS Revealing Boots is a prime example of the kind of females we strive to make with these genetics. Her sire, Revelation 2K was an easy choice when mating our Boots donor. This combination proves to make an extreme amount of style and eye a peal. Super clean lines and structural correctness maker her balance up quite nicely. This young heifers future is bright enough she's going to need sunglasses!

This red heifer has been an eyecatcher from day one. She has the style and grace for the showing, but all the practical parts to be a top notch cow. She is long as can be in her neck and length of body. This fancy red heifer is backed by excellent genetics on both sides. She is sired by the Laurie Meyers bred, PVSM Victorious and then one of our strongest cow families we have had. We have retained many females from this family and for good reason - they make great cows. Victoria's dam is a halfblood Red Angus which just adds a little bonus to her pedigree. Juniors should look at this heifer. She is show broke and has already earned a honor as the calf champion at the WV State Fair.

Cherry came to us as a pair with her mother from Creek Bend Farm. Unfortunately, as a ½ blood she does not work in our program. Everyone knows that Sim/Angus cattle have some of the highest value to cattlemen and this Red Angus sired heifer fits that bill. She is dog tame and will go anywhere on a halter. Her mother is an outstanding red purebred Simmental cow that checks all of the boxes for phenotype. I expect that she will do well in a cattleman's herd.

Feel the Love is a star-headed female that represents exactly why we believe so strongly in our cow families. She stems back to our very best non-donor cow, a female that has quietly become one of the most valuable producers in our program by doing what great cows are supposed to do, outproduce herself year after year. When a cow can consistently raise daughters that make you stop and take notice, you know you are dealing with something special, and Feel the Love is another exciting example of that consistency. Phenotypically, she brings plenty to the table. She is exceptionally good in her underline, with a chiseled, refined front end that is long, extended, and stretchy. She offers plenty of looseness through her spine and the kind of youthful, later-maturing design that gives her room to develop into a powerful and productive female. There is an attractive balance of femininity, length, and growth potential here that should make her a fun one to watch develop. Her sire, Woodford, continues to impress and achieve at every level, including where it matters most, in the pasture. He continues to stamp his progeny with the kind of quality and functionality that makes them valuable both in the show ring and as future breeding stock. And then there is the pedigree behind her dam. It reads like a storybook of proven genetics, featuring influential names such as SAM, Deplorable, and Right to Love. That combination of phenotype, proven cow power, and recognizable genetics makes Feel the Love a female we are extremely excited to put in front of you. We have brought you another exciting female, one that we believe has the pieces to become something truly special. Now it is up to you to take her home and write the next chapter.

We absolutely love our Woodford daughters, and it is easy to understand why when you study this female. She is exceptionally long-spined, big-silhouetted, and incredibly attractive, offering the kind of length and dimension that immediately catches your attention. She has a fresh, youthful look about her while still possessing plenty of substance and shape, making her the kind that has the ability to continue developing and performing as she matures. What really adds to the excitement is the cow family behind her. She is out of an incredible Berwick daughter backed by the immortal Alley, bringing generations of proven maternal genetics and cow power into the equation. Maternal prowess is not simply written all over this female—it is woven throughout her pedigree. This is a genetic package built around females that have made an impact and continued to contribute to the programs fortunate enough to own them. We believe there is a tremendous amount of upside here. We are extremely confident in this Woodford daughter and what her future holds. She is the kind you can appreciate today, but we believe you will appreciate her even more as she matures into the powerful, maternal, and highly productive female we know she can become.

A few years ago we got the idea to cross one of our donors on a Maine Anjou bull that hit us pretty hard, TJSC End Game. From that flush comes BPF Whiskey Girl. At 9 months of age she is already reading to be a powerful female. Study her lines and you find a female that is structurally correct in her makeup. She paints a beautiful silhouette and has enough hair to make a yak jealous. Already named Reserve Division Champion at New York State Fair, this dual registered percentage Simmental/Maintainer female is gentle enough for the youngest exhibitor to prance around the showing. With Eastern Regionals in Bloomsburg, Pennsylvania she will get you into that Percentage arena for a little different class.

Attention Juniors- this is one to have on your list. With the 2027 Eastern Regional Classic in Bloomsburg PA and the National Classic in Louisville both are close to home. This fall born heifer offers an opportunity to lead a competitive purebred into the ring at the highest level. Roxy is the first offering from our outstanding red donor, who was 2025 AJSA National Classic Cow-Calf Grand Champion in both Owned and Bred and Owned divisions. The calf that was shown at her side went on to become Ohio State Fair Grand Champion PB Simmental bull this year. That bull and this heifer are full sibs. The top side of this pedigree is the now deceased W/C Red Bird 269J. Having been shown multiple times this summer, Roxy is already show broke and should be straightforward to develop. She is easy keeping and should maintain that fresh feminine look needed to compete as a senior yearling. With a proven donor, a blue-blood sire, and a full sib that has won at multiple levels behind her- your junior needs to take a long look if they want to show a top notch red senior yearling next summer.

AI bred 6/27/2026 to THSF Lover Boy B33 (2983443).

This Double Up bred heifer is one that gives you the opportunity to calve out the sought after red cattle in the industry. She is a deep middled, sound made, feminine female that come from a solid red proven dam in our herd. Her dam goes back Built Right, old school proven genetics that prove to produce time and time again. N2 is a solid black heifer with the red coat gene, bred to Lover Boy who also carries the red gene. Take your chances here and get a red calf and even if it doesn't come out red, it will be high quality genetic addition to your herd. N2 is confirmed pregnant, due Early April to Lover Boy. Hillcrest Farm is BQA certified and BVD tested negative herd.

AI bred 5/18/2026 to CLWTR Ahead of Time K1 (4158736).

This Broker bred heifer is one that goes back to a foundation cow in our herd. Her dam, has produced quality female after quality female. Whether it be an embryo calf like this one or a natural calf, they all become production type females that are keepers in the herd. We wanted to share some of the quality maternal females and offer this Broker sired bred heifer. Bred to the calving ease bull from Clear Water Simmentals Ahead of Time, she is due to calve at the end of February. Bring this one home and you won't be disappointed with its pedigree and production. Hillcrest Farm is BQA certified and BVD tested negative herd.

AI bred 4/12/2026 to WHF Entourage H450 (3924201).

Brandy is a breeding piece with a pedigree that grabs your attention. If you have been looking for a female that combines amazing cow families, phenotype, and comes with an exciting mating, don't overlook this one. This attractive half-blood bred is a daughter of the popular SCC SCH 24 Karat 838 backed by the highly regarded donor from Missing Rail, STF Brianna BN53. Brianna has made her mark on many programs, and this heifer carries the same combination of look, femininity, and brood cow potential that makes the cow family so valuable. As unique as her pedigree may be, the most exciting part of this package may be the mating with WHF Entourage H450- her late January calf is surely going to be a good one.

Due 12-20-26 to Sexed Heifer Private Stock (3775641). Jupiter is an absolutely gorgeous baldy female that checks a tremendous number of boxes for the discerning cattleman. She offers the kind of moderate, functional frame that is so valuable in a brood cow, yet she is anything but short on substance. Bold and robust through her rib shape and body dimension, Jupiter combines genuine capacity with a long, extended spine and an exceptionally attractive skull shape and design. She is the kind that catches your attention from across the pen and continues to impress the longer you study her. Beyond her impressive phenotype, Jupiter is built to work. She possesses an ideal foot size with the shape, heel, and flexibility to allow her to get out and cover ground with ease. That combination of structural integrity, body, and functionality should serve her well for years to come as a productive female. Her genetic package is every bit as intriguing as her physical design. Jupiter is backed by cow families that have consistently proven their ability to generate quality, including Only One, who traces to the great UDE Princess and brings in the likes of Broker and Hairietta. Her dam side is equally impressive, tracing directly to the immortal Alley and Relentless, a pedigree that includes the legendary 8543. There is a tremendous amount of proven cow power stacked behind this female, giving her the kind of genetic foundation that should make her a valuable addition to any serious breeding program. Jupiter is due at the end of December to the calving-ease sire Private Stock, adding even more opportunity to an already exciting young female. Whether you are searching for a female with show-ring presence, maternal value, structural integrity, cow-family power, or simply one that can add quality to the next generation, Jupiter deserves your closest attention. She is the complete package from phenotype to pedigree and production potential, and she is one you will not want to overlook when sale day arrives.

Due to calve 1-6-27 to SFI Lone Wolf (4570908).
Offering 50% interest with the option to double down to own 100%. Yes, you read the pedigree correctly, and yes, the picture really is the female selling. This stout-made, long-spined, mammoth of a cow is the kind that demands your attention the moment she enters the ring. She is impeccable standing still, yet somehow even more impressive when she gets out and moves. There is tremendous dimension and power built into this female, but she still maintains the length, look, and structural correctness needed to make her a valuable breeding piece. Her pedigree, we feel, needs absolutely no introduction to the serious Simmental enthusiast. She is sired by the legend himself, Broker, and backed by the immortal NWSS Champion, Alley. Alley has made a name for herself at every farm she has ever called home, becoming one of those females that has consistently proven her value through her influence and production. After seeing this direct daughter in production, it is easy to understand why the Alley cow family has earned such a reputation. 667K is the kind of female that can change the direction of a program. She combines a proven pedigree with the stoutness, substance, power, and overall quality that serious cattlemen look for when selecting females with donor potential. We believe she is the type that would make her way into a lot of producers' donor pens, and we would love nothing more than to give someone the opportunity to put this kind of cow power to work in their own program. Adding even more excitement to the equation, she is due to calve the first of the year to the new and exciting Woodford son, Lone Wolf. Lone Wolf was one of the major talking points in Denver last year, and after seeing what he offers, we knew he was a sire we needed to incorporate into our own herd. We think this mating has the potential to be something very special, bringing together the power and cow family behind 667K with the look and fresh genetics of Lone Wolf. Opportunities to purchase a female with this combination of pedigree, production, phenotype, and future mating potential simply do not come around often. This is a cow we believe can make an immediate impact while laying the foundation for generations to come. When 667K comes through the ring, take advantage of the opportunity, raise your hand high, and take this one home. We have no doubt she will be one you are proud to own and even more proud to build around. Find us on sale day to discuss the future of this female!

LOT A: BULL CALF (4741770) BORN 4/23/26 BY WILDYDALE STOLI ON ICE. Pregnancy due 4/26/27.

We are incredibly excited to offer this wonderful "all in one package." Here is the opportunity to add genetics from a proven donor to your program, put a potential herd bull in your pasture, and add a high quality recip to your herd- all with one bid. First, the pregnancy is from Wildydale Sangria, our red donor who was the 2025 AJSA National Classic Cow Calf Grand Champion in both the Owned, and Bred and Owned divisions. Not just a show heifer, she is a fabulous Lover Boy daughter that continues to get better with age. Her progeny are structurally correct, feminine, and easy keeping. Her first natural calf was this year's Ohio State Fair Purebred Simmental Bull Grand Champion. The mating with W/C Bankroll should result in a sound stout female with show ring potential. The calf at side is Norah's natural calf sired by Sangria's full sib Wildydale Stoli On Ice, who in 2025 was the Ohio State Fair Percentage Grand Champion, West Virginia State Fair overall Simmental Grand Champion, and Keystone Percentage Grand Champion. This calf has the soundness and numbers that leads us to believe he has potential to be developed into a herd sire. The recip is no slouch herself. She is a purebred 6 year old out of a cow we bought from the Silvertown dispersal that was part of the Onyx family. Her sire is our herdsire Cowboy Cut son out of a Broker cow. She has been a real workhorse for us raising heavy calves regardless of if they are natural or ET calves. A proven cow, a valuable calf at side, a Sangria x Bankroll pregnancy, and a whole lot of flexibility for the high bidder.

AI bred 5/19/2026 to WHF/JS/CCS Double Up G365 (3658592).

We purchased this cow from Fedderke's at the 2023 Ohio Beef Expo, and she has turned into an extremely consistent producer for us. Out of the ever popular SAM on a Silveras Style x Drama Queen dam, she is big centered, tons of power, structural soundness and a really nice profile, she has been an asset to our operation. Due 2.28.27 with a Double Up calf (should be a heifer calf)

What an exceptional genetic package we have to offer in our Grand Champion Bull. Teddy is sired by the calving ease heifer maker Point Proven. His dam Lovely is a daughter of the famed Hudson Pines Farm Right To Love. Talk about LEGACY! To top off that sought after pedigree he is a calving ease bull with the EPD's to show his calves will come small and be above average as yearlings. The proof is in his API score at 143, putting him in the top 25% of the breed. He has the widest back of any bull for his age. Think of the ribeyes he will pass along to his prodigy. His front third is massive, from his shoulders to his neck and head. His middle third is wide and deep. His rear third is where he excels above others. He is so wide and thick carrying it down into his legs. If you are tired of using bulls that only build large front ends, then this is the bull for you. And did I mention power? This guy screams power on a sound body with great feet and the proper angles in his shoulder and hip.
